

Smart Outlet

→ DESCRIPTION

Smart outlet is a combination of the art of industrial design and high tech. The product is beautifully designed so that this tiny device can be easily used everywhere or with other devices.

You should just plug it in to a normal outlet to have a smart outlet and then control every electric device. This product is used to control non-smart home appliances such as coffee maker or any electric device requiring timing. It has also other advantages. The recent model enables you to measure the electricity consumption of the device connected to the smart outlet and see it on your cellphone application. This would help the users to have better planning for electricity usage.

Users can use Cloud technology to have access to Smart Myer application and control the smart outlet from anywhere all over the world.

→ PRODUCT FEATURES

- Online/offline feedback
- Support home center: Intelligent Master

TECHNICAL SPECIFICATION

→ RF Parameter

- 2.4 GHz Wi-Fi

→ Working Voltage

- 220V
